Local elected officials from both city and suburbs are invited to attend the press conference. In addition, FAiR members will attend the press conference as a show of support for all the work that has gone into successfully creating the "table and seat" for citizens, civics, city and suburbs, a historic set of meetings that have never occurred before in the history of O'Hare decision making.

##

The Fair Allocation in Runways (FAiR) Coalition is a rapidly growing movement of citizens and civics on Chicago's Northwest side and the near Northwest suburbs. FAiR is the leading voice for both city and suburban residents negatively impacted by the new runway takeoff and landing patterns. FAiR supports the economic engine that is O'Hare while also seeking a real role in when and where those engines fly over the residents, homes, parks and schools of impacted communities. FAiR recognizes that two more runways are yet to be completed and the problems posed by yet more massive increases in airplane traffic will only become worse if citizens do not have a voice in the process.

FAiR requests residents report airplane noise complaints online throughout the day at www.fairchicago.org or 800-435-9569. Citizens and civic organizations are invited to learn more about and join FAiR at www.fairchicago.org. FAiR is also on Facebook and Twitter @fairchicago.
